SOFT SKILLS

- Teamwork
- Time Management
- Adaptability
- Effective Communication
- Critical Thinking
- Problem Solving

TECH SKILLS

- Python (Expert)
- Java (Beginner)
- Docker
- FastAPI
- React
- SQL, MySQL
- Machine Learning
- Web Development
- HTML, CSS, JS
- Git

LANGUAGES

- English (Fluent)
- Indonesia (Fluent)
- Japan (Basic)
- Chinese (Beginner)

VANIA AGNES DJUNAEDY

COMPUTER SCIENCE STUDENT

PROFILE

I am a dedicated and hardworking Computer Science undergraduate at Bina Nusantara International University. With a strong passion for machine learning, data analysis, data scientist, and UI/UX. I am highly motivated, detail-oriented, and continuously eager to expand my knowledge and skills

EDUCATION

Bachelor of Information Technology | Sarjana Komputer 2022- 2026 (ongoing)
School of Science | Binus International University
Double Degree Program with RMIT University

Cita Hati High School 2020-2022
International Baccalaureate Diploma Program

PROJECTS

Fake News Detection OCT 2024 - DEC 2024
Built a Fake News Detection system using LSTM, RNN, Bi-LSTM-CNN, and GRU with Co-Attention for accurate predictions. Developed a user-friendly React frontend and a scalable FastAPI backend, containerized with Docker for seamless deployment and real-time detection.
Technologies Used: React, FastAPI, Vite, Docker, Deep Learning, JSX

Real-time Chat Application MAR 2024 - JUNE 20024
Developed a task management system using React and FastAPI to optimize collaboration and task tracking within a company's supply chain, ensuring seamless functionality and efficient workflows
Technologies Used: React, Python, FastAPI, SQL, CSS, HTML
